

Dear FCC,
24, 2008

April

I wanted to write this to you because I am appalled at how you want to change Christian Broadcasting. This is supposed to be a free country and people are supposed to pray when they want, choose what church they want to go to, believe in God and many other things. By changing things, you will cause so much grief in the lives of people who listen to Christian Radio Stations to get encouragement and inspiration in God's word. If someone is going through a rough time in life and they want to do something stupid like kill themselves and they hear a certain song on KLove or any other Christian station, and it speaks to them, it will help them through their tough times. Knowing God is there is very important to MILLIONS of people worldwide wherever these stations reach.

I want these regulations you want to put on these radio stations. This country is not a dictatorship. Don't you believe in God? If you have depression wouldn't you want to be encouraged and inspired in a positive way? The Bible says that the word of God needs to be preached to the world. If you don't believe that God exists then you have another thing coming to you when you meet God face to face when you pass on.

I'm not ashamed to call myself a Christian or tell people what God has done in my life. Christian radio changes people's lives for a more positive outcome. So many people will wonder why the FCC wants to mess with the radio stations. I think it's because you don't care about others. You are greedy like the majority of the people in big companies or government agencies. You don't care about the people in this world, you care more about yourselves and how you can make a profit. That is selfish and wrong. Christian radio is the best thing that has happened in my life. There has been many negative things that have happened in my life and when listening to the KLove and the positive music they play, it lifts my spirits up and they care about people. They want to see people living their lives in the love of Christ. Yes, Jesus Christ who died for the sin of the world. He means everything to me and to dictate what is said on the radio, this may as well be a third world country. Everything has to be hushed.

You know, I'm speaking out for so many who feel the same way I do. God knows all, sees all and is all. He knows everything about you even what's in your hearts. Do the right thing and stop this proposal of regulations. You may have to answer to God one of these days and see how He judges you.

Sincerely,

Kimberly Krueger
